

CYMBA Technologies awarded “Gold Provider” badge by RFPConnect

Strong showing in RFP Connects annual Investment Management Technology Survey.

London, 23/11/2012 – **CYMBA Technologies** a provider of high-performance Multi Asset Class Investment Management solutions has today announced that it has been ranked very highly by Financial IT’s annual Investment Management Technology Survey.

Katherine Emirosan (Editor at RFP Connect) said “CYMBA Technologies was rated as “Gold Provider” in our IMT Survey 2012 and represented by its CYMBA Athena product. CYMBA Athena provides a number of trading, liquidity and data connectivity solutions. The total score of the product is 6.38, which means the solution is very good and meets all clients’ expectations. The product gained the highest scores among European clients for Cost, Value and Reliability. It’s a truly reliable, cost-effective and capable solution for Order/Execution and Compliance Management”

Karim Ali (Partner & Co-Founder at CYMBA) said “We are, first of all, absolutely delighted and honoured to have been included in this survey alongside several major global players in the Buy Side Front Office Technology space. Scoring so positively and being awarded a “Gold Provider” badge just makes it all the more satisfying. We have come a long way this year with some significant client wins and major Athena IMS implementations throughout 2012, across a myriad of different Asset Managers, Hedge Funds and Strategies. Our Athena IMS platform has also been, in our opinion, taken to the next level in terms of functionality and 3rd party connectivity.

About RFPConnect

RFPConnect is an international on-line marketplace where technology buyers meet technology sellers. The site provides an RFP Exchange, where vendors can access technology buyers across the financial services, healthcare, industrial and commercial and public sectors. The site is open to buyers to post Requests for Information (RFIs), Requests for Quotations (RFQs) and Requests for Proposals (RFPs). RFPConnect includes a regularly updated directory of technology vendors, service providers and consultants around the world. Site visitors are able to subscribe to a Vendor Update notification service, alerting them to upgrades and updates of technology they own or monitor. A Mandate Monitoring service, which tracks publicly announced new business wins, can be tailored to the specific needs of each subscriber. RFPConnect also offers a continuously updated news service, supported by twice-weekly news broadcasts and a database searchable by sector, service provider and product.

RFPConnect.com is developed by Venom Media Limited, a privately held company based in London.
